A film was presented by the Government of Poland to mark the opening of COP 19 and the ninth session of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP). The opening concluded with a statement by the Chairman of the Intergovernmental Panel on Climate Change, Mr. Rajendra Pachauri.

II. Organizational matters

(Agenda item 2)

A. Election of the President of the Conference of the Parties at its nineteenth session

(Agenda item 2(a))

3. At the 1st meeting of the COP,[2] on 11 November, the President of COP 18, Mr. Al-Attiyah, recalled that, in accordance with rule 22, paragraph 1, of the draft rules of procedure being applied, the office of President of the COP is subject to rotation among the five regional groups. He informed Parties that a nomination had been received from the Eastern European States. Following his proposal, the COP elected by acclamation the Minister of the Environment of Poland, Mr. Marcin Korolec, as its President. A statement was made by the elected President.

B. Adoption of the rules of procedure

(Agenda item 2(b))

4. At the 1st meeting, the President recalled that the President of COP 18 had proposed, and Parties had agreed, that he would conduct intersessional consultations on this issue and inform the COP of any developments. As there continued to be no consensus on this matter, the President proposed that, as at previous sessions, the draft rules of procedure contained in document FCCC/CP/1996/2 should continue to be applied, with the exception of draft rule 42. In addition, the President proposed to hold informal consultations on this issue and report back to the COP on the outcome of the consultations.

5. At the resumed 10th meeting, on 23 November, the President reported that there was still no consensus on this issue. On a proposal by the President, the COP agreed to continue to apply the draft rules of procedure as outlined in paragraph 4 above, and agreed that the President would continue consultations during the intersessional period and would report back at COP 20 (December 2014).
